

19 February 1975

MEMORANDUM FOR: Executive Officer, ICS

SUBJECT : USIB/IHC - ICS Weekly Activities Report

I. NEW ITEMS

A. Community Imagery Systems. Preparing IC Staff report to DCI of status of community proposals relating to Imagery dissemination systems, particularly separate NPIC and DIA proposals for Washington area video nets, and CIA proposal for laser facsimile net; and relation of these three to other proposals for automated support for community imagery tasking and for dissemination of imagery-related data to DoD and civilian agency users. Action Officers:

PD/DCI/IC/[] IHC/[]

II. ON-GOING ACTIVITIES

A. State-CIA Interface re Project SAFE. C/IHC sponsoring dialog with CIA/CRS project office for SAFE and State/INR to provide inputs from State bearing on SAFE system design. Action Officer:

IHC/[]

B. ARPA/RAND Development Program for Intelligent Computer Terminals. Introducing Rand personnel to IHC members who have expressed interest in dialog with Rand and ARPA on development of future computer terminals with greater built-in capabilities to perform "intelligent" tasks to assist analysts. Action Officer: IHC/[]

C. Computerized Cartography. IHC serving as focal point to foster community dialog on dynamic displays of cartographic information to convey intelligence materials. The Harvard University Mapping Service, which is working out computer programs that draw on geographic data bases designed by DIA and CIA demonstrated current work to an interagency group this week. Action Officer: IHC/[]
